TrackMaster Greg's Harness Reports

**OVERVIEW** - Thank you and welcome to TrackMaster Greg's Harness Racing Selections. Now some of you wise guys out there are going to say "Hey, you just did these picks to make money." Well maybe I did, but I'm not going to take the information to the grave with me. This is the best system for playing the harness races out there. I've studied long and hard to finalize the formulas, and we've run all the speed, class, driver/trainer, post position, etc. numbers through the computer a million times to come up with these powerfully unique ratings.

**WAGERING** - In the longrun, there's gonna be money in your pocket if you just bet my top selection to win every race. However, I recommend using the top rated horse in a race as the key in an exacta or trifecta box with 2 or 3 other contenders. The bankroll necessary for this type of betting isn't huge, and as with most exotics, the prospects are better for higher returns. As you'll also notice I provide a BEST BET and LONGSHOT play at the top of the page for your convenience.

**NOTES** - On occasion, a horse will receive a rating of zero. This usually indicates the horse is making one of its first starts, either career or in the country. Generally I would advise against wagering on a race with 2 yr olds or foreign horses yet to prove themselves. If you have any questions or comments, drop me a line anytime. Always remember to use common sense and strict money management.

P#	PP	HORSE NAME	M/L	DRIVER - WIN%	POINTS
<b>RACE 1</b>
